Model URD-L

The URD-L series of round dampers are a double layered blade design with an integrated cellular foam sealing gasket. The superior design insures long life and no maintenance. URD-L dampers are easy to install and come with a 5 year warranty. The URD-L damper is constructed of heavy gauge galvanized steel. The nylon bearings and drive shafts insure smooth, quiet operation and provides a thermal barrier to the field supplied motor. It is designed to operate at static pressures up to 1" w.c. with less than 3% leakage. The 4" & 5" Models have no gasket. The URD-L has a 5/8" Diameter Drive Shaft which extends 1.5" beyond the damper and a 10-32 Mounting Stud.

NOMINAL DIMENSIONS

MODEL #	A	B
URD-L - 4	4.00"	10.00"
URD-L - 5	5.00"	10.00"
URD-L - 6	6.00"	12.00"
URD-L - 7	7.00"	12.00"
URD-L - 8	8.00"	12.00"
URD-L - 9	9.00"	12.00"
URD-L - 10	10.00"	12.00"
URD-L - 12	12.00"	14.00"
URD-L - 14	14.00"	16.00"
URD-L - 16	16.00"	20.00"
URD-L - 18	18.00"	20.00"
URD-L - 20	20.00"	20.00"
